

Omnitek Engineering, Corp. (OMTK.PK) receives a forecast-order for 1,000 diesel-to-natural gas conversion systems from its JV partner in Thailand, Omnitek Engineering Thailand Co. Ltd.,. The value of this order is reported to exceed \$ 1,200,000. The first lot is scheduled for delivery immediately, with further shipments evenly spaced over the next six month. The Company forecasts sales in Thailand alone to top 2,000 conversion kits in 2008.

Omnitek's CEO, Werner Funk, reports, "Sales of 2,000 diesel-to-natural gas conversion systems just in Thailand is a conservative estimate considering the size of the total market." The Company's proprietary diesel-to-natural gas conversion system has been successfully applied in over 12 countries. "Our technology is now clearly accepted by the industry and our revenue trends show a strong upward curve," Mr. Funk continues.

#### Disclaimer

Some of the statements contained in this news release discuss future expectations, contain projections of results of operations or financial condition or state other "forward-looking" information. These statements are subject to known and unknown risks, uncertainties, and other factors that could cause the actual results to differ materially from those contemplated by the statements. The forward-looking information is based on various factors and is derived using numerous assumptions. Important factors that may cause actual results to differ from projections include, among many others, the ability of the Company to raise sufficient capital to meet operating requirements, completion of R&D and successful commercialization of products/services, patent completion, prosecution and defense against well-capitalized competitors. These are serious risks and there is no assurance that our forward-looking statements will occur or prove to be accurate. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," and variations of such words and similar expressions are intended to identify such forward-looking statements. Unless required by law, the Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
